2. Please note that in terms of Public Service Regulation 43. (2) an Executive Authority (EA) shall determine the grade of the post to correspond with the evaluation by the Minister in terms of Regulation 41(2)(d) on a date determined by the Minister. - (a) It has been established that the regulatory framework and the operating environment of the applicable posts are the same. The argument by some departments that their operating environment is unique and justifies a different salary grade is therefore incorrect and not justifiable.
- (b) Please note that the benchmark job grades will not affect the remuneration position of serving employees at higher salary levels as their salary position is protected in terms of Section 34 of the Public Service Act. However, any new appointments or transfers to the relevant posts should be done in terms of the benchmark salary grades.

- (c) The effect of this determination is that these jobs/posts mentioned above cannot be advertised differently by departments with effect from the implementation date of this directive.
 - (d) The benchmark salary grades are applicable to the posts performing the functions as set out in the job descriptions. If it is determined that posts do exists that justifies a different salary grade based on the functions attached to the post the MPSA must be approached to consider the grade of the post.
 - (e) Different combinations of functions in posts does not mean the creation of posts that are unique and that justify different salary grades.
5. The National Treasury has been informed in this regard and they should not be approached for additional funds under the guise that it was additional expenditure resulting from a policy intervention by the DPSA and has confirmed that departments should fund the cost implications from their allocated baseline.
 6. Compliance with the MPSA's directive is not discretionary. Therefore, implementation and compliance will be monitored in terms of section 16A of the Public Service Act, 1994.
