KZN Provincial Growth & Development Strategy | 5 Year Review

The Provincial Growth and Development Strategy (PGDS), which provides a long-term vision and strategy for the growth and development of the Province, was developed in consultation with the organized structures of government, business, labour and civil society. The PGDS is a product of and belongs to the people of KwaZulu-Natal.

The Provincial Executive Council mandated the Provincial Planning Commission (PPC) to review the PGDS every 5 years. The PPC undertook a consultative review in 2016 with valuable contributions from stakeholders. With the 5 years of the PGDS 2016 nearing its end, the PPC is currently conducting a review of the PGDS and stakeholders are encouraged to provide their insights and contributions to add value and enrich the review of the PGDS.

Relevant documentation and a draft for consultation are available on the Provincial Planning Commission website: www.kznppc.gov.za.

Inputs can be provided via the Online Form (<https://bit.ly/3oDyffS>) on the Provincial Planning Commission website or email you inputs to PGDSREVIEW@kznpremier.gov.za
