### **UPDATE ON KZN NATIONAL SCHOOL NUTRITION PROGRAMME**

The KwaZulu-Natal Department of Education experienced challenges last week due to non-delivery of food items to some of the schools.

As a result, the MEC for Education, Ms Mbali Frazer directed the HOD and the top management of the Department to swiftly investigate the root cause and the possible solution. During the investigation, it transpired that there were logistical challenges encountered by the appointed service provider.

The KZN Department of Education confirms that food items have been delivered to 90% of the 5444 schools, although there are reports of shortages in some of the schools like in Ugu District and these are currently being attended.
