HOD, MR NGCOBO TO LAUNCH THE ICT ROLL-OUT PROGRAMME

PMB - The Head of Department for Education in KwaZulu-Natal, Mr Nkosinathi Ngcobo will tomorrow, Friday, 29 April 2022 at 09H00 launch the ICT Roll-out Programme at KwaMiya Primary School under the oThukele District.

The investment by the KZN Department on this school alone stands at approximately R 2, 5 Million for ICT Resources and R350 000 for the Science Consumables. This package also includes uncapped Internet (Wi-Fi) for three years. The recurring cost of Internet connectivity needs to be featured by the School Management and SGB in the plans beyond the third year so that there is continuity of the services.

“All ICT resources required by schools are highly expensive, this calls for the school community to take ownership and ensure its safety and security knowing that criminals will ordinarily reside within the community,” remarked the HOD Mr Nkosinathi Ngcobo.

The details of the programme are as follows:

Date: Friday, 29 April 2022

Venue: KwaMiya Primary School in the oThukele District

Time: 09H00

The Media is invited to cover the ICT Roll-out Programme.
