

# Chief Directorate: Media Liaison and National and Provincial Communication

## **KZN FLOODS** Communications Update and Plans

**28 APRIL 2022**

**Elijah Mhlanga**

# The Purpose of the Report

**To give an update on the work done up to now and to share plans to be implemented by the Communication Chief Directorate to support the Department of Education in KwaZulu-Natal**

# Introduction

- **The province has experienced adverse weather conditions that resulted in flooding and damage of various infrastructure. The heavy rains started from the 10<sup>th</sup> April 2022.**
- **Amongst the various affected infrastructure are the education facilities (schools) in various districts.**
- **The districts have submitted reports of 630 affected schools, 101 inaccessible schools, 124 extensively damaged.**
- **64 deceased learners, 1 educator, 1 food handler**
- **The Province has reported various damages to roads, bridges and other infrastructure which poses a challenge when attempting to assess schools to conduct other technical assessments.**

# The Role of DBE Communication in the KZN disaster

- To provide strategic communications support
- To enhance technical communication advise
- To provide additional human resources
- To assist amplify messages in the public domain via media platforms.
- To obtain information that DBE needed for a broader intervention in support of the province.
- To provide crisis communication expertise.

# DBE Communication Approach

- The DBE Communications has for years established a communication planning and execution platform with KZN Education Department communication team.
- The platform became useful when the crisis resulting from the floods took place.
- The DBE Communications Unit through the channel created with KZN Education obtained information on the floods in KZN.
- Updates were received accompanied by images showing the extent of the damage in various schools in the province.
- The MEC and HOD with District Directors started visiting schools reported to be affected in the heavy rains.

# Crisis Communication Approach

**DBE and KZN DOE agreed to apply a crisis communication approach in respect of the floods;**

- **Principals are the Messengers in Chief!**
- **The Communications Unit is the driver of strategy and activities.**
- **Proactive – be the first to share information about the disaster and how it affects us.**
- **Regular Updates – issue daily communication either via media statement or digital posters, circular**
- **Rapid Response - Respond swiftly and be visible on the scene.**
- **Always On – be available at all times to give information to the media.**
- **Coherence – speak from the same script.**

# Disaster Communication

- In keeping with the crisis communication principles, a safety alert warning was issued on the **11 April 2022**, a day after the heavy rains. School communities were advised to use their discretion based on the circumstances in their own areas.

**Kwazi Mshengu**

I have directed the HoD to issue a circular and statement advising schools in areas affected...

## SAFETY ALERT

**Attention to all school principals and School Governing Bodies:**

Due to inclement weather conditions, the Department of Education in KZN advises teachers, parents and caregivers to use their discretion whether or not to send their children to school tomorrow  
**12 APRIL 2022.**

The Department will monitor weather patterns and give further advice in this regard.

Embargoed: For immediate release

Wednesday, 13 April 2022

## **FLOODS FORCES SCHOOLS TO CLOSE IN KWAZULU-NATAL**

The Department of Education in KwaZulu-Natal wishes to inform school communities and all education stakeholders that it has temporarily closed all schools that have been affected by massive flooding of heavy downpours and inflows of water that has been taking place in the last few days in KwaZulu-Natal.

The strong flooding has caused a huge disruption and it continues to impact negatively on teaching and learning at schools, while it remains a threat to the lives of pupils as well as teachers. The terrain and level of water has made it extremely difficult for teachers and pupils to reach the schools.

At some areas it is extremely dangerous to access schools as pupils and teachers are forced to cross high levels of water. We have therefore decided to provisionally close down all affected schools until Tuesday, 19 April 2022 as we continue to monitor the situation across the province.

In the meantime, we are in the process of developing contingency plans to mitigate the impact of the floods and provide short-term measures while the water hopefully subsides.

To this end, we urge parents/guardians to cooperate with the school authorities and continuously monitor the levels of the water in their respective areas. We remain firm in our resolve to protect learners and teachers at all material times.

End/

### MEC Mshengu to visit PMB schools after devastating storms.

The MEC for Education in KwaZulu-Natal, Mr Kwazi Mshengu will tomorrow, Thursday, 14 April 2022 visit schools in KwaZulu-Natal following floods that not only forced the Department to close more than 500 schools, but also claimed the lives of learners.

MEC Mshengu will visit Willowfontein Combined School, Ikusasehle High School and Funulwazi Primary School, all under the Umgungundlovu District.

The details of the visit are as follows:

**Venue: Willowfontein Combined School**

**Date: 14 April 2022**

**Time: 07H30**

The Media is invited to cover the MEC's visit.

# Visit to Flood Affected Schools

- On **14 April** the DBE joined MEC Mshengu and HOD Ngcobo on two separate visits to witness some of the damage in the schools in the midlands of KZN.

# Disaster Communication

- In keeping with the crisis communication principles, a media statement was issued on the **14 April 2022** in which the **Minister expressed her condolences** following the devastation of the heavy rains and the lives lost.

## MEDIA RELEASE

14 APRIL 2022

### BASIC EDUCATION MINISTER CONVEYS CONDOLENCES TO AFFECTED FAMILIES IN KWAZULU-NATAL FLOODS

The Minister of Basic Education, Mrs Angie Motshekga, has expressed her sincere condolences and sympathy to all the families who have lost their loved ones in the heavy rains in KwaZulu-Natal.

The latest reports indicate that 306 people have lost their lives in the widespread floods that affected various areas in the province.

Minister Motshekga said that by Wednesday afternoon 18 learners and one educator had been reported to have perished in the disaster that occurred. "We are saddened that so many lives have been lost and we would like to express our deepest condolences to all affected families and relatives. It is such a tragic loss and our prayers go out to those who have lost their family members and those who lost their belongings," said Minister Motshekga.

The floods have forced the Department of Education in the province to close schools until next week as more than 120 have been reported to be damaged.

"This is a catastrophe and the damage is unprecedented. What is even more worrying is that more rain is expected in the same areas that are already affected," Minister Motshekga said. The province has now been declared a provincial disaster.

The Department of Basic Education has sent a team of senior managers to support the provincial education department in conducting an assessment of the damage caused. The Minister will visit the province soon.

The DBE will collaborate with the Department of Education in KZN together with other departments and stakeholders to assist affected families.

The Department of Education in the province had already suffered from recent storms which caused extensive damage to more than 200 schools. KZN Education MEC Kwazi Mshengu said that the province has now more than 500 schools that are damaged and require urgent attention.

BRIEFING FOR  
THE  
MINISTER OF BASIC EDUCATION  
19 APRIL 2022

**Minister Motshekga was briefed ahead of her visit to the schools together with MEC Mshengu. The session took place at Dokkies in Glenwood, Durban**

# Minister's Visit to KZN Day 1

**Minister Motshekga held several briefing sessions and countless interviews with media on site. The visits were covered live by all TV news channels and radio news as well as digital and print media outlets.**

# Minister's Visit to KZN Day 1

**Minister Mantsheke visited schools where displaced learners were accommodated days after the floods.**

# Minister's Visit to KZN Day 2

**The Minister and MEC used an SAPS helicopter to flyover the areas where there were inaccessible schools.**

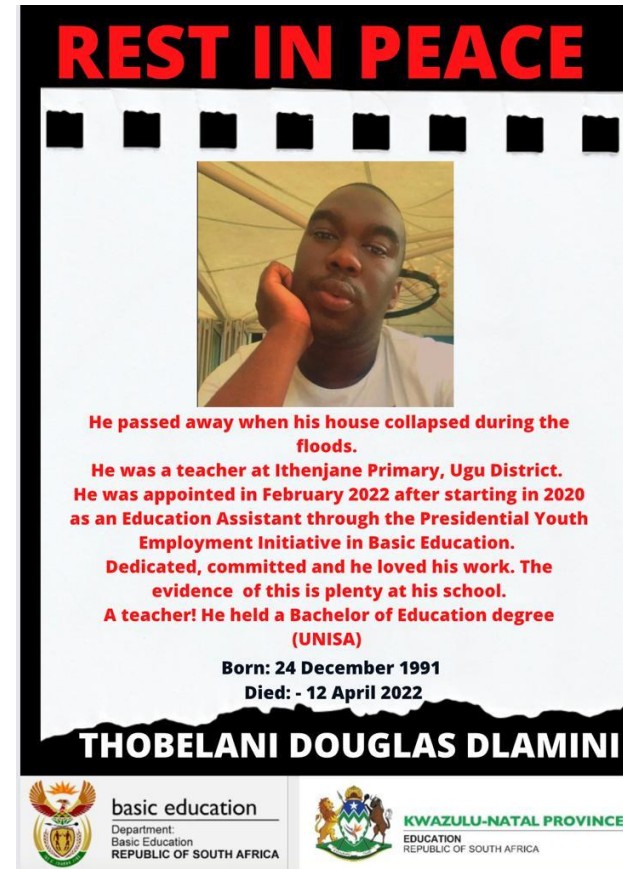

# Minister's Visit to KZN Day 2

**The Minister and MEC visited the school where the one educator passed away in the floods when his house collapsed on him.**

# Condolences Message

Following the visit to the schools, this message was disseminated to position the Department as caring and sympathetic during this time.

**REST IN PEACE**

**He passed away when his house collapsed during the floods.**

**He was a teacher at Ithenjane Primary, Ugu District. He was appointed in February 2022 after starting in 2020 as an Education Assistant through the Presidential Youth Employment Initiative in Basic Education. Dedicated, committed and he loved his work. The evidence of this is plenty at his school. A teacher! He held a Bachelor of Education degree (UNISA)**

**BACK TO SCHOOL**  
Learner Transport #KZNfloods

Due to the recent floods, the provision of learner transport has been affected in 34 schools.

A total of 39 school buses and 18 minibuses has not been able to operate due to amongst other things, muddy roads, badly damaged roads, and collapsed bridges.

Many vehicles are expected to return to operation as soon as the ground hardens. Some vehicles are already using alternative routes to reach schools..
